Content Roadmap — Q2 & Q3 2025

Strategic Direction

Following the exceptional performance of Stellar Run and Last Kingdom, CineVerse's content strategy for 2025 will double down on action and drama while undertaking a root-cause review of the comedy genre pipeline. Comedy Genre Review

All comedy projects currently in development have been moved to 'Pending Review' status. The content committee will evaluate script quality, casting alignment, and cultural relevance before any greenlight decision. Key questions to address:

- Are scripts relying on outdated comedic tropes that no longer resonate with urban audiences?
- Is there a mismatch between the age of comedy directors and the 18–30 target demographic?
- Should CineVerse commission younger writers/directors for the comedy slate?
- Can comedy be blended with action or romance to improve genre performance?

Stellar Run Franchise Plan

Given the extraordinary success of Stellar Run — ■520 Cr gross, 9.4 avg engagement score, 11 days trending — the content board has approved a franchise plan. Stellar Run 2 is confirmed for August 2025 with an expanded budget of ■200 Cr. A limited series spin-off is under discussion for the CineVerse OTT platform in 2026.
