

CineVerse Entertainment

Quarterly Executive Report — Q1 2025

Executive Summary

Q1 2025 has been a landmark quarter for CineVerse Entertainment. Total platform revenue grew 38% year-on-year, driven primarily by the extraordinary performance of **Stellar Run**, which became our highest-grossing release in the streaming era. Subscription additions reached 4.2 million — our strongest quarter since launch. Premium tier uptake rose to 34% of the active user base, up from 26% in Q4 2024.

Comedy as a genre continues to underperform expectations. Despite aggressive marketing spend on **Hasee Toh Phasee 2** and **Comedy Circus**, both titles posted completion rates below 55% and audience ratings in the 5.5–6.2 range. Leadership has flagged this trend for strategic review in Q2.

Top Performing Titles

Stellar Run (Action, Jan 2025) — Collected ■520 Cr gross revenue with a 98% completion rate on premium devices. Viral social media momentum — particularly a celebrity collaboration campaign — drove 85 million impressions in the pre-release window. The film trended on Twitter/X for 11 consecutive days post-release. Mumbai and Delhi accounted for 42% of total views.

Last Kingdom (Action, Nov 2024) — Continued strong performance into Q1 2025 with repeat viewership up 22%. Engagement scores remain above 8.4 across all major cities. Kabir Khan's direction has been widely praised in critical circles.

Mitti Ki Khushboo (Romance, Feb 2025) — Imtiaz Ali delivered a critically acclaimed romance with ■180 Cr revenue and strong engagement in Tier-1 cities. Female viewers aged 25–40 were the dominant audience segment.

Underperforming Titles & Concerns

Dark Orbit (Sci-Fi, Mar 2025) — Despite the highest production budget of the quarter at ■150 Cr, the film posted a mixed critical response (7.8 rating) and below-target completion rates of 65–72%. Audience feedback cited a convoluted second-half plot. ROI on marketing spend was the lowest of any 2025 release at 7.2x.

Comedy genre — All three comedy releases in the past two quarters (Hasee Toh Phasee 2, Comedy Circus, Jugaad Junction) have underperformed. Common factors include weak scripts, low social media engagement, and poor word-of-mouth. Marketing ROI for these titles averaged just 4.6x versus the platform average of 14.8x.

Regional Highlights

Mumbai leads all cities in views and engagement score (9.6 for Stellar Run in February). Delhi is a close second. Bangalore is the fastest-growing market, with engagement scores rising 18% quarter-on-quarter. Southern markets (Chennai, Hyderabad) show strong appetite for action and drama but remain underpenetrated for comedy.

Strategic Priorities for Q2 2025

- Commission at least 3 new action/drama projects following Stellar Run's blueprint.
- Suspend greenlight of comedy projects until genre strategy is reviewed.
- Increase marketing investment in Bangalore and Hyderabad — fastest-growing markets.
- Investigate Dark Orbit audience drop-off in second half — apply learnings to Sci-Fi pipeline.
- Expand Celebrity Collaboration campaigns — highest ROI channel at 32x.
- Target Premium tier conversion in Tier-2 cities (Jaipur, Lucknow, Agra).
